

A Message from the Doctors

We have great patients here at New Smiles! We love hearing your stories, getting to know each of you, and seeing your smiles when you come in to visit. It is important to us that you feel welcome and appreciated every time you come. If there is anything we can do to make your experience in our office better, please let us know. Our patients are our first priority. We also love seeing new faces! If you have friends who need care, feel free to share your New Smiles experience with them and invite them to give us a call. Thank you for your support, and don't forget to come see us this summer!

Dr. Doyel, Dr. Aanderud, & Dr. McKinney

In the Office

We have several new faces in the office! Cheryl, our receptionist, is the first smile you see when you walk through our door. We also welcome Abby, a long time patient and fan, as our new Hygiene Coordinator. Elizabeth is Dr. McKinney's kind and efficient Treatment Coordinator. We are so proud to have such a wonderful team here at New Smiles!

- **Sedation Options:** We have several options available

for procedural sedation. In addition to nitrous oxide, our doctors are certified to offer oral and IV sedation. We want you to have the best care during your visit and have choices for every level of anxiety and treatment. Check out our Insider Article in the [Sherwood Gazette](#) for more information.

- **KeySmile:** We are frequently asked what we recommend for insurance plans. Instead of individual insurance, which usually have restrictions imposed, we recommend a dental membership with KeySmile. Dental professionals have long been frustrated because insurance companies control so many of a patient's decisions about their dental treatment. With KeySmile, patients can choose a plan that will be the most beneficial for them based on their individual dental needs. The basic Adult Membership includes all regular exams, cleanings, and x-rays, as well as an emergency exam and a discount on all other procedures, including cosmetic.

Dental Health Corner

- Summertime is coming! That means lots of ice cream, soda, and other cold treats. Remember to brush and floss regularly to protect your teeth from all the sweets!
- Brushing and flossing are great for dental health, but adding a swish of alcohol-free mouthwash to your hygiene routine can help eliminate residual bacteria and germs that escaped the brush and the floss.

Out of the Office

At New Smiles, we believe in working hard and playing hard. Our team has done some fun things over the past few months, and more fun things coming up in the next few months.

- **Egg Hunt for Hope: March 2016**

New Smiles sponsored the annual Egg Hunt for Hope this year. Even in pouring rain, over \$38,000 was raised at the Egg Hunt For Hope for the Rose family. All of your support is truly appreciated! Sadly, this year's recipient passed away the day before the event. She fought a good fight to the end. She will be greatly missed and we send our best to the Rose Family.

- **Robin Hood Festival: July 2016**

We hope to see you all at Sherwood's annual Robin Hood Festival July 15-16! We always enjoy seeing your smiles along the parade path.

- **Patient Appreciation Party: 2016**

We will be holding our second patient appreciation party this summer! Last year was a huge success and featured a dunk tank to "Dunk the Dentist". The date for this year's party will be announced soon!

Patient Spotlight

At age 73, Yvonne Benedict is smiling and laughing with confidence. That wasn't the case several months ago. Hesitant to undergo the treatment she needed on her anterior teeth, she put her trust in Dr. Aanderud and he revitalized her smile with six beautiful crowns. She says of her new smile, "I never realized how often I used to cover my teeth when I'd smile or laugh."
