

## A Message from the Doctors

We have big news! After much deliberation, we are excited to announce that Pacific Family Dental and Progress Dental are combining and changing our name to New Smiles. We hope this change will make it easier for our patients to access our services, use more insurance options at our office, and aid new patients in finding us.

On behalf of everyone here at New Smiles, we want to express our deep appreciation for all of our loyal patients. We wouldn't be here were it not for the relationships we enjoy with each and every one to create healthy, beautiful smiles. For that, we offer our sincere gratitude. Happy Holidays!

*Dr. Doyel & Dr. Aanderud*

## In the Office

We have had a lot of exciting changes happen here at New Smiles. First of all, we are delighted to welcome our new team members, Dr. Rich McKinney, Cheryl, and Vicki. Look for their smiling faces on your next visit.

The New Smiles team has been keeping up with the latest advances in dental procedures, and we are excited to be able to provide several new services.

- **IV Sedation:** By offering complete sedation in addition

to localized anesthetic, we are now able to easily facilitate longer and more in-depth

procedures, including implants, extractions, bone grafting, and complete reconstruction. This is also a great option for patients who experience high anxiety about being in the dental chair. Our doctors have been highly trained, certified and licensed by the state medical boards in both Oregon and Washington, so patients can feel comfortable about their procedure knowing they are in safe and competent hands.

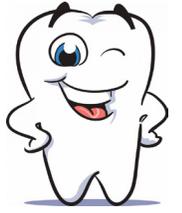

- **Laser:** This modern technology allows us to utilize a more natural approach to addressing various dental ailments. Use of the DEKA Co2 Laser helps reduce periodontal disease and initiates bone regeneration following some surgical procedures. Because the laser speeds up the body's natural tissue renewal process, it can be used to eliminate cold sores at the onset as well.

- **Invisalign®:** New Smiles Dental is proud to offer Invisalign® as an alternative to braces. Through a series of transparent plastic retainers, Invisalign®

makes minor adjustments that bring teeth back into alignment. This method is great for patients who want to perfect their smile.

## Dental Health Corner

- With the holiday season upon us, remember to brush and floss regularly to protect your teeth from all those sweet treats!
- Use It or Lose It! That's what happens with a lot of insurance plans. End-of-year appointments are limited, so call us today to schedule your check up. Be sure to come in for regular cleanings to help keep your insurance incentive levels up.

## Out of the Office

At New Smiles, we believe in working hard and playing hard. Our team has done some fun things over the past few months.

- **Hood to Coast Race: August 2015**  
For several years, the New Smiles team has participated in the annual Hood to Coast race, and this year was no exception. Braving heavy rain, thunder and lightning, Team "Molars in Motion" ran the 195-mile course to cross the finish line for the 8th year in a row. Way to go Molars!

- **Parking Lot Party: July 2015**  
This was our first patient appreciation party. Held in our brand new extended parking lot, our guests enjoyed hot dogs, snow cones, prizes, and a chance to "Dunk the Dentist" with Dr. Doyel, Dr. Aanderud, and Dr. Wikle. It was a huge hit! We look forward to this becoming an annual event.

- **Give n' Gobble: November 2015**  
New Smiles once again sponsored Sherwood's annual Thanksgiving Day Give n' Gobble 5K/10K run. Thank you to everyone who participated and donated to the food bank! We are proud to be a part of such a wonderful event held in the spirit of giving.

## New Team Member Spotlight

We are excited to welcome Dr. Richard McKinney to our New Smiles team! Dr. McKinney spent the last five years serving in the US Navy, and has completed extensive training in implant dentistry, oral surgery, and IV sedation. Dr. McKinney and his wife have three beautiful children. Welcome to New Smiles!
