

How about tucking a smile into this year's stocking?

Leo Buscaglia said it well: "Too often we underestimate the power of a touch, a smile, a kind word, listening ear, an honest compliment, or the smallest act of caring, all of which have the potential to turn a life around."

At New Smiles we do believe in the power of nice and how a smile really can make a difference. For a loved one who hides their smile due to dull, stained, broken or missing teeth or unhealthy gums, how about give the gift of a smile? Here are just a few ideas:

New Smile in a Day – Our innovative "New Smile in a day" procedure brings hope to those who are concerned about the appearance of their teeth, but fearful of dental work or lack the time for repeat visits. Patients will walk away with entirely functioning, long-lasting teeth.

Electric toothbrush – For those who don't brush consistently, thoroughly, who have dexterity challenges and/or who have dental work that makes teeth-cleaning difficult or who just want to preserve their dental work-- an electric toothbrush would be a welcome gift. Some of the best-selling models are Oral B & Philips Sonicare.

Whitening -- Professional whitening is the only way to safely and successfully obtain noticeable and rapid results. Easy custom fit trays to wear during the day or night make a whiter smile possible. At New Smiles, new and continuing patients receive this gift FREE.

Happy Holidays from New Smiles!
