

Let New Smiles offer you an alternative to traditional dental insurance!

Are you one of the many Americans who don't seek dental care because you don't have dental insurance?

Having healthy teeth and gums can affect your self-esteem, how well you eat and sleep and even affects your overall health. Unfortunately, most dental insurance plans have a maximum yearly benefit of \$1,000, which hasn't changed since the 1960s!

That means that your dental premiums probably only cover routine cleanings, fluoride and X-rays, which leaves you to pay entirely out of pocket for any other treatment. And that's only if you're one of the 64% of Americans who have dental insurance through your employer.

While we accept most dental insurance plan payments at New Smiles, we've also seen the need for an alternative. As open-enrollment season for dental insurance approaches, we'd like to offer our patients the option of our New Smiles Dental Membership.

At New Smiles, we offer membership plans that are comparable to the cost of most group dental plans. For example, a basic membership is only around \$30/month and will cover twice-yearly exams, cleaning and X-rays, an emergency exam, a smile consultation and 15% off ALL other dental procedures, including cosmetic procedures with NO maximum benefit!

Don't let inadequate dental insurance prevent your family from getting the care that you need. This upcoming year, consider New Smiles Dental Membership as an alternative to your current plan. Call our office today at 503-925-9595 for more information.
